SUMMARY:

Self-taught UI/UX and front-end designer/developer with a strong eye for clean, user-centric design and the ability to turn ideas into functional interfaces. Transitioning from IT recruitment into design and web basics, independently managing projects from wireframes to live websites. Currently building a small but focused portfolio that reflects problem-solving, responsive layouts, and practical design-to-code execution.

SKILLS:

- **Design Tools:** Figma (wireframes, prototypes, mock-ups)
 - **Design Practices:** Responsive layouts, basic design system setup, maintaining visual consistency
 - **Web Basics:** HTML & CSS (for understanding developer handoff).
 - **Growth Focus:** Expanding into JavaScript for interactivity and advanced UI
-

PROJECTS

1. **Music App UI (Figma Design)**

Independently designed a modern music streaming interface covering key flows (welcome, sign in/up, home, player). Focused on minimal design, smooth navigation, and user-friendly interactions.

[View Prototype](#).

2. **Personal Portfolio – UI Design (Figma)**

Created a personal portfolio design in Figma, focussing on a structured layout, professional dark aesthetic theme, and clear project sections.

Emphasized user friendly navigation and visual consistency to deliver a modern, engaging interface.

[View Prototype](#)

3. **Personal Portfolio – Live Website (HTML & CSS)**

Converted a portfolio design into a live, fully responsive website. Handled the complete cycle—from structured layout and clean styling to deployment—demonstrating the ability to bridge design and development.

EXTRAS/ OTHER EXPERIENCE

CfactCS (4Ci.), Bhopal, M.P

Technical Recruiter

September 2022 – April 2023

Contribution:

- Primarily responsible for recruitment.
- Partnered with technical teams and hiring managers to understand project needs and deliver suitable talent.
- Ensured clear documentation and requirements understanding — similar to preparing structured design deliverables.
- Used digital tools and ATS platforms to track and manage workflows efficiently.

ARTECH L.L.C., Bhopal, M.P.

Associate Recruiter

June 2022 – August 2022

Contribution:

- Primary responsible for recruitment.
- Coordinated with clients and internal teams to meet technical and functional requirements.
- Maintained precise communication and documentation, building attention to detail important in design work.

REASON FOR CAREER GAP

- From mid-2023 onwards, I was preparing for competitive government exams. During this period, I decided on a career shift into IT and started learning front-end basics and UI/UX design using Figma.

EDUCATION:

- Bachelors in Electrical Engineering from Madhyanchal Professional University in 2022.
