SUMMARY:

Entry-level UI/UX enthusiast transitioning from IT recruitment into design and front-end basics. Focused on creating simple, clear, and user-friendly layouts in Figma and applying core HTML/CSS skills to build a live personal website. Actively developing a small portfolio of self-initiated projects to strengthen design thinking, prototyping, and responsive layouts.

SKILLS:

- **Design Tools:** Figma (wireframes, prototypes, mock-ups)
- **Design Practices:** Responsive layouts, basic design system setup, maintaining visual consistency
- **Web Basics:** HTML & CSS (for understanding developer handoff).

PROJECTS

1. **Music App UI (Figma Design)**
   Designed a modern, music streaming app interface inspired by YouTube Music. Includes Welcome, Sign In, Sign Up, Home and Player Screens. Focused on Minimal design, usability, and smooth navigation.
   [View Prototype](#).
2. **Personal Portfolio – UI Design (Figma)**
   Created a personal portfolio design in Figma, focussing on a structured layout, professional dark aesthetic theme, and clear project sections. Emphasized user friendly navigation and visual consistency to deliver a modern, engaging interface.
   [View Prototype](#)
3. **Personal Portfolio – Live Website (HTML & CSS)**
   Converted a design into a fully functional website using HTML and CSS. Implemented responsive design principles for different screen size, optimized the structure for readability, and ensured smooth navigation to effectively present skills and projects.

EXTRAS/ OTHER EXPERIENCE

CfactCS (4Ci.), Bhopal, M.P

Technical Recruiter

September 2022 – April 2023

Contribution:

- Primarily responsible for recruitment.
- Partnered with technical teams and hiring managers to understand project needs and deliver suitable talent.
- Ensured clear documentation and requirements understanding — similar to preparing structured design deliverables.
- Used digital tools and ATS platforms to track and manage workflows efficiently.

ARTECH L.L.C., Bhopal, M.P.

Associate Recruiter

June 2022 – August 2022

Contribution:

- Primary responsible for recruitment.
- Coordinated with clients and internal teams to meet technical and functional requirements.
- Maintained precise communication and documentation, building attention to detail important in design work.

REASON FOR CAREER GAP

- From mid-2023 onwards, I was preparing for competitive government exams. During this period, I decided on a career shift into IT and started learning front-end basics and UI/UX design using Figma.

EDUCATION:

- Bachelors in Electrical Engineering from Madhyanchal Professional University in 2022.
